

Say it with Love Love Tea this Valentines Day!

Love Love Tea is the new creation from Today was Fun, created especially for Valentines Day, exclusively sold from Harvey Nichols and independent delis around the country.

The blend lovingly combines whole organic rose buds and petals with coriander and liquorice root and is approved by the Soil Association. The rose imparts a light floral aroma with a hint of citrus from the coriander seed and a naturally sweet flavour from the liquorice root.

Beautifully packaged in a pink box tied by hand with organic cotton, it truly looks as good as it tastes. In addition, each box holds a secret love note for its keeper as well as gives simple love instructions on the label...

Be kind with yourself. Remind yourself how unique and perfect you really are. For without being generous to ourselves we can't be generous with our love for others.

Sharyn Wortman, Today was Fun's founder, explains: "Valentines day should not only be a time for lovers to share gifts but a time for all of us to treat ourselves to something special."

"Love Love Tea has been designed to remind us to be kind and generous to ourselves on Valentines Day and on each and every day," she concludes.

Love Love Tea is Available from the 1st February 2007 and will be in store all year round at £4.95 a pack. It joins Sleepy Tea, Happiness, Inspiration, Friendship, Expectancy Tea and Green Green Tea as part of the Tea and Philosophy range from Today was Fun.
